ALPHONSE J. SERPICO, O.D. (Ret.)
STUART SONDEIMER, M.D.

Our practice has been using the services of Medical Group Services, Inc. (MGSI) for over five years. Prior to that time we did all of our billing and collections internally. We can no longer imagine doing billing and insurance submissions internally. We believe that there are numerous advantages to outsourcing these activities. The expertise of the associates at MGSI allows us to work with highly trained billers and coders who maximize our efficiency and minimize claim rejections. They keep up with the ever-changing world of managed care and educate us on an ongoing basis. We have been very satisfied with the services that MGSI provides for us. We feel that health care practices should be utilizing these resources much more than they currently do. MGSI is an excellent choice for the outsourcing of billing and insurance submission activities.

Dr. S. Barry Eiden

President and Medical Director of North Suburban Vision Consultants, Ltd.
