June 17, 2009

Prior to accepting my current position with Florida Hospital Healthcare System (FHHS), I was responsible for managing a Tampa Bay multi-specialty physician group practice. During the mergers and acquisition process we determined that a key cost-savings element was the full integration into a single billing/claims service that unified the process and increased the accuracy and timeliness of reimbursements. Mr. Maniscalco and his team provided critical assistance during the integration process while delivering excellent service and cash flow results. I strongly encourage any practice looking to improve their bottom-line efficiencies to consider how MGSI may assist them.

Regards,

Steven R. Baratta
Chief Operating Officer
Florida Hospital Healthcare System
